

Teste di Rapa

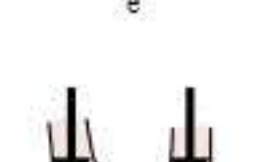

è un'opera permanente, che c'è sempre,

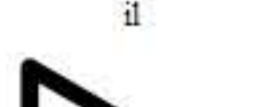

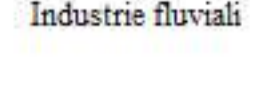

che si può vedere alle Industrie Fluviali.

Questa mostra è al Roof garden

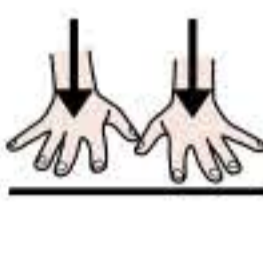

delle Industrie fluviali il giardino sul tetto.

Teste di rapa

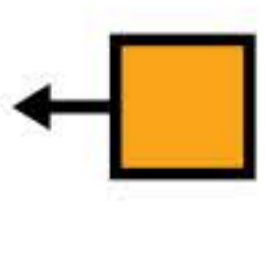

sono

disegni

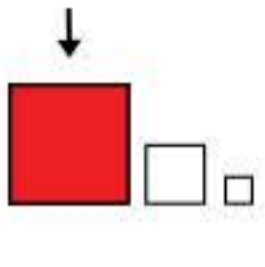

di

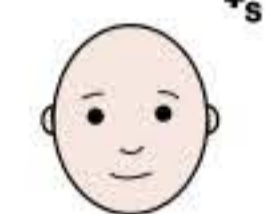

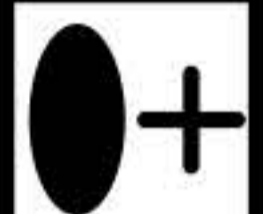

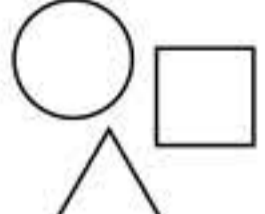

rape

giganti

che hanno la forma delle facce

delle persone.

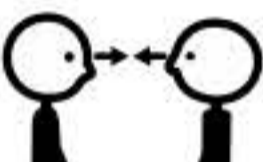

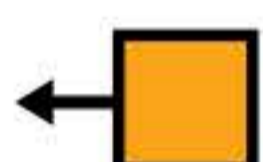

Le Teste di Rapa si guardano e si

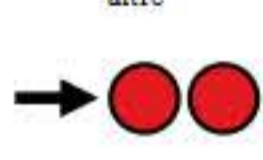

parlano

e da questo loro contatto

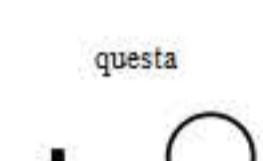

nascono altre piante come zucche, palme,

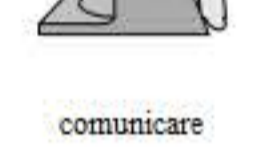

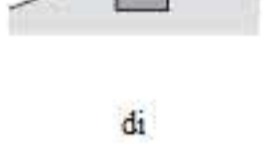

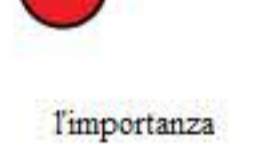

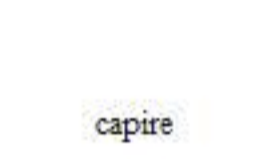

ecc.

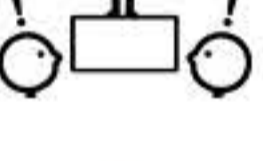

Con questa opera l'autore vuole fare

capire l'importanza di comunicare

e di rispettare

l'ambiente che ci circonda e di

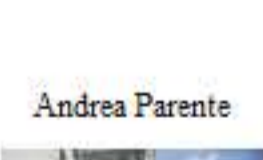

essere tutti meno egoisti.

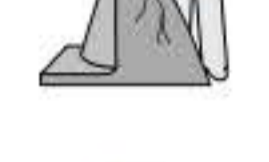

L'autore è Andrea Parente

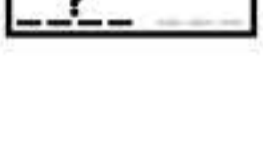

ma ha scelto come nome d'arte

Alleg.

Ha presentato molte altre opere

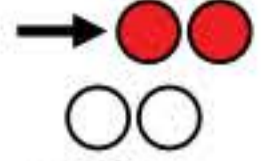

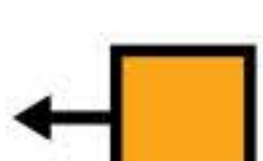

e una di quelle più famose

è un libro scritto su una parete di 100

metri quadrati.

METRI

QUADRATI.
